DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 11/16/2007 was filed after the mailing date of the allowance on 06/18/2007. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

Claims 42-51 are allowed as indicated in the previous notice of allowability mailed 06/17/2007.

Examiner Comments:

The examiner notes the JP 4-90667 Patent Publication in IDS submitted on 11/16/2007 is directed to a different invention, which teaches synthesizing additional character information onto blank spaces of a document for faxing. Such synthesizing method is different from information embedding. The examiner notes embedding is known in the art to hide information in such a way that the embedded information is not easily recognized by naked eyes (please see paragraph [0013] of present application). The examiner further notes the JP 4-90667 publication fails to provide teachings of determining whether the document is a fraudulent document based on the verification of the embedded information.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tom Y. Lu whose telephone number is (571) 272-7393. The examiner can normally be reached on 8:30AM-5PM.
